

Bill's Favorite iPhone apps

- **Lightroom Mobile** – LR Mobile is free to Adobe subscription users
- **Snapseed** – a free app for Android and iOS

Snapseed is a mobile app developed by Google to edit pictures in the most professional way possible.

Features

- The Snapseed app has 29 Tools and Filters that help give you the best effects on your pictures. Some of its tools include Perspective, HDR, Structure, Brush, and Healing
 - You can access RAW files and JPG on the app.
 - The app allows you to save your favorite looks and apply them to any new picture you take.
 - You can choose any filter brush you want on the app. Choose the right brush to improve the saturation, brightness, and exposure of your picture.
 - You can adjust styles and designs to your perfect choice.
 - You can rotate a picture on the app by 90 degree or making a skewed horizon straight.
 - White Balance: The white Balance feature makes your pictures look more real.
 - You can add texts to your picture. The text can be stylized or plain.
 - Vintage: You can add features to your picture to make it look like a picture from the 50s, 60s, or 70s
 - You can expand your canvas to accommodate larger pictures. Fill up extra space with beautiful arts that compliment a picture.
-
- **Distressed FX : Plus \$13.99**
Distressed FX Plus is a special edition of the highly acclaimed original. For a small single payment, you will get access to all current and future filters, as well as exclusive access to all new effects and features ahead of release on the original app. This is an extraordinary opportunity to harness all the amazing effects from Distressed FX. If you are ready to take your photos to the next level, this is the ideal investment at a bargain price.
-
- **Image Blender - \$3.99**
A simplistic and creative app for combining images with masks and different blend modes on your iPhone and iPad. While the use and basic idea is very simple, there's almost an endless list of things you can do with it.
-
